

# Maturo's In-tier Poly Guide

## Build

Any defensive accessory works here (preferably something with DR and/or Block)

Any defensive pet works here (I just got lucky and random-rolled the new mythic pet the day of release)

## Runes

Kor is a **must!** I initially ran this D4 with the redirect rune (mythic), and it was decent, but this one is THE BEST.

## Enchants

I ran full Damage Reduction. Block can also work.

## Familiar Lineup

Me (front), Drazig, Drazig, Drazig, Drazig - I had like no event fams, so I decided to brute force this D4 with only Drazig. My Drazigs were **fully stabled**.

Brain - I used “% chance to spread heal and spread shield when you hit an enemy” however, use a **PER TURN** brain instead - as you’re alternating between healing your team and damaging the enemy with Drazig. I was in a rush and direct crafted the wrong brain (still good but per tuern wouldve made it easier)

Pumps - I ran full empower (for reference, I had a +11.4, +10.8, +9.6)

Bone - The absolute BEST bone in the entire game. I’ve used this baby for so many intier D4’s - “Teamates behind you gain x% damage) - this bone is NUTS. I only had a rare one which was 6%. Drazig hits like a truck and heals like a God with this bone. I struggled for soooo long and thought about giving up and maybe waiting to pick up a bait (like glarz). But after picking up this bone, and direct crafting a better brain, the dungeon took about 8 or so more attempts to beat.

---

## Mob priority

I briefly followed “Gagf’s Polychromatic Blaster Google Sheet Guide.” He’s got a second tab on his spreadsheet which shows a list. I mainly focused on the “**The Worst**” section and didn’t look further. Very helpful if you are struggling on mobs.

Mainly, just make sure you clear these guys as quickly as possible:

### Additional Notes/Tips

If you run into any of these bosses, **QUIT**

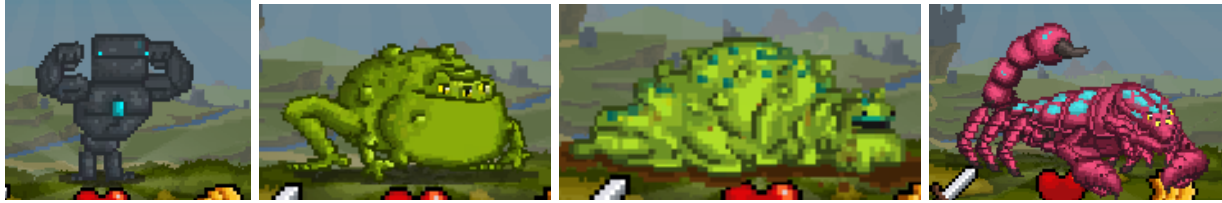

**Hate these guys.**

These bosses were *not bad*, and I did manage to beat them a few times, but I used a few potions. Can try, but would not recommend.

If you get 2 or more of these in your run, it should be a free win

These I either tried and failed, or almost never faced them.

If you have any questions, concerns, or comments, feel free to reach out to me on Discord (maturo)

**Good luck! And don't give up!**
